## Summary

Enthusiastic Software Developer with experience in building backend services using Node.js and Express.js, and managing databases such as MongoDB and MySQL. Proficient in JavaScript, C++, and core web technologies (HTML, CSS). Skilled in implementing RESTful APIs, JWT-based authentication, and deploying applications on Vercel. Skilled in using Git/GitHub for version control and Postman for API testing. Passionate about writing clean, efficient code and optimizing application performance.

## Education

**Army Institute of Technology**

*Bachelor of Engineering in Computer Engineering*

**Aug. 2023 – Jun 2027**

*CGPA – 8.84*

## Projects

**E-Commerce Website** | *Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, JWT, Vercel*

**Jul 2025 - Present**

- Built a full-stack e-commerce platform with product catalog, cart management, and secure order checkout.
- Implemented JWT-based authentication for user login, registration, and route protection.
- Developed RESTful APIs for products, cart, and orders using Node.js and Express.js.
- Designed and integrated responsive frontend using HTML, CSS, and JavaScript for an intuitive user experience.
- Integrated Cloudinary for product image storage and added search/filter functionality for products.
- Created admin dashboard for product management and user order tracking.
- Deployed the application on Vercel for scalable cloud hosting.

**Blog Platform** | *Node.js, Express.js, MongoDB, JWT, Multer, Cloudinary, HTML, CSS, JavaScript*

**Jun 2025**

- Built a blogging platform where users can register, log in, and manage blog posts with image uploads.
- Implemented JWT-based authentication and password hashing using bcrypt for secure user sessions.
- Integrated Cloudinary with Multer for efficient image upload and storage in the cloud.
- Developed a REST API in Express.js for handling user authentication and blog operations (CRUD).
- Designed a responsive and dynamic UI using HTML, CSS, and Vanilla JS for seamless user experience.

**Task Manager** | *Node.js, Express.js, MongoDB, HTML, CSS, JavaScript*

**May 2025**

- Developed a full-stack task management application with user authentication and CRUD operations for tasks.
- Implemented JWT-based authentication for secure login and session management.
- Built RESTful APIs using Express.js and MongoDB with proper middleware for authorization.
- Designed a dark-themed, responsive UI using HTML, CSS, and JavaScript for a smooth user experience.
- Added features to add, edit, mark complete/undo, and delete tasks with instant updates using Fetch API.
- Integrated persistent authentication using localStorage to maintain user sessions.

## Technical Skills

**Languages:** C++, JavaScript, HTML, CSS

**Backend & APIs:** Node.js, Express.js, REST APIs, JWT Auth

**Databases:** MongoDB, MySQL

**DevOps & Deployment:** Vercel

**Tools & Others:** Git, GitHub, VS Code, Postman, Bash

## Position of Responsibility

**Cultural Board, AIT**

**Apr 2024 – Jun 2025**

*Joint Secretary*

- Managed logistics and operations for large-scale events with 2000+ attendees.
- Collaborated with 50+ members to ensure the seamless execution of cultural programs.

## Achievements

- 5 star coder on HackerRank.
- Solved 200+ DSA problems on various platforms
